Subject: FW: Update on Dewey Burdock for You and Ron...

Lucita/Valois: should Ron and Holly accept our invitation, please coordinate with Sarah on arranging this meeting and preparing a version from our past briefing documents focused primarily on these two topics. I am fine with one or both of you leading the conversation with them.

Callie asked to be copied on any electronic invitation that goes out.

Thanks,

Douglas

Subject: Update on Dewey Burdock for You and Ron...

Hi Holly: as follow up to our briefing our RA yesterday on our proposed UIC permits/AE and associated topics on DB, Shaun wanted to update folks in your management chain up through Ken Kopocis on this project. Among the topics we vetted with Shaun yesterday, there are two he thinks HQs needs to be directly informed of:

One is how we plan to proceed with our current use determination for the AE. We briefed Shaun on your/OGWDW's comments/concerns and he wants us to be responsive to your input as we move forward. The other topic is the scope of our cumulative effects analysis required for UIC area permitting. Based on polling Regional practices during a recent

Ex. 5 Deliberative Process (DP)

We believe additional conversation with you and Ron (and ultimately Peter and Ken) on these two topics would be timely when you both are here for our national meeting the first week of June. Could you visit with Ron and let us know whether we could have up to 60 minutes of your/his time for this while he is in Denver outside of our meeting agenda?

Since I will be out next week, please copy Sarah on your reply back. She is our Acting Water Program Director in the wake of Sadie Hoskie's departure last month and can help with setting this up. Along with my permit writer and UIC attorney, Sarah and our Acting ARA, Darcy O'Connor, would plan to sit in on our conversation with you and Ron.

Thanks!
